EXECUTIVE SUMMARY

Learning & Development and Program Management leader with 16+ years of experience designing, delivering, and optimizing enterprise learning solutions, capability development initiatives, and global learning operations. Expertise includes Learning Needs Analysis, Instructional Design, Adult Learning principles, ILT/VILT facilitation, blended learning, learning path curation, stakeholder consulting, program governance, learning analytics, and continuous improvement. Led Microsoft's global learning ecosystem supporting over 200,000 learners while partnering with business leaders to improve workforce capability through scalable learning solutions and AI-enabled innovation.

CORE COMPETENCIES

Learning Needs Analysis • Instructional Design • Adult Learning Theory • ILT & VILT Facilitation • Blended Learning • Microlearning • Performance Support • Learning Path Curation • Capability Development • Leadership Development • Learning Analytics • Learning Evaluation • Stakeholder Consulting • HR Partnership • Program Management • Project Management • Change Management • Program Governance • Cross-functional Leadership • Targeting & Communications

PROFESSIONAL EXPERIENCE

Founder & Director – Program & Capability Transformation | Hamrith Consulting Services LLP | Aug 2024–Present

- Lead AI-enabled capability development and organizational transformation initiatives.
- Design learning strategies, governance models, KPI frameworks, and consulting engagements.
- Partner with business stakeholders to identify skill gaps and recommend targeted learning solutions.
- Drive continuous improvement through automation, analytics, and modern learning technologies.

Program Manager – Global Operations & Transformation | Tech Mahindra Allyis (Microsoft) | Nov 2019–Aug 2024

- Led Microsoft's global Learning ecosystem programs supporting 200,000+ learners across multiple regions.
- Conducted learning needs analysis with business leaders and stakeholders.
- Designed and managed learning pathways, certification programs, content publishing, learner communications, and audience targeting.

- Facilitated virtual workshops, governance reviews, and stakeholder sessions.
- Developed facilitator guides, learner communications, job aids, and performance support resources.
- Measured learning effectiveness using Power BI dashboards, KPIs, and executive reporting.
- Improved operational efficiency by 25% through process optimization and automation.
- Managed global cross-functional teams across India, USA, Romania, Costa Rica, and the Philippines.
- Managed Microsoft service account operations and global delivery governance.
- Built Power BI dashboards supporting KPI management and executive decision-making.

Business Analyst / Project Manager | Convergys | Jul 2012–Nov 2019

- Supported enterprise learning operations, reporting, communications, and process improvement.
- Partnered with stakeholders to execute learning and business transformation initiatives.
- Coordinated cross-functional teams and change management activities.
- Developed operational analytics, reporting frameworks, and workforce management solutions.
- Improved productivity and reduced operational cycle times through process optimization initiatives.
- Supported performance reporting and workforce planning activities.

Senior Associate – Operations & Reporting | Firstsource | Feb 2010–Jun 2012

- Developed operational analytics, reporting frameworks, and workforce management solutions.
- Improved productivity and reduced operational cycle times through process optimization initiatives.
- Supported performance reporting and workforce planning activities.

KEY ACHIEVEMENTS

- Supported learning programs for over 200,000 learners globally.
- Delivered 25% operational efficiency improvement.
- Built executive dashboards and governance reporting.
- Led geographically distributed teams across five countries.
